

Laboratory Rules

Please print this page, sign it and return it to the TA before you start the first experiment

These simple rules must be followed at all times

- **Never** connect your circuit or machine to the power source before you get the permission from your TA.
- Use circuit breakers for protection.
- **Do not** allow the current, voltage or speed to exceed the ratings of the components
- Always **consult** the instructor for assistance.
- When in doubt, **ask**.
- **No** food or drink allowed in the lab.
- Books and bags must be kept away from the experiment bench.
- **No** loose wire is allowed on the experiment bench.
- **Do not** distract others.
- **No student will be allowed to do any experiment without taking the lab quiz. The Quiz cover the following:**
 - 1) Objectives of the experiment
 - 2) Procedure to follow
 - 3) Circuit Diagram
 - 4) Measurements and observations
